Best math teachers I have had.

Sample Student Feedback

Ms. Gajdos was fabulous! Her explanations were great and she had great patience if you did not understand something. She was able to make the class very fun. I wish she would have been my math teacher all along.

Course: Math RTD Teacher(s): Barb Gajdos

Great course! I feel if this had gone all year I would have had a much better mark. I feel that even though it went through at a fast pace I still had time to understand hard subjects. Had a blast and actually enjoyed math for once! :)

I've really enjoyed the review course. I took it last year and helped me pass math 20-1. I feel like I would not have done as well if I had not take a RTD prep class. I'm confident I will pass the diploma now! Thanks so much!!!

all I have to say is that the teacher was awesome
