

Course: Biology 30 RTD Teacher(s): Ioan Matthews

I thought the teacher was really good, he knew the course extremely well and made the review more interesting with good examples.

Mr. Matthews was fantastic! Helped me review tons + learn new stuff! I am confident going into my diploma in a day! So fun! Fantastic man + would recommend him to many people as well + this course!

Mr. Matthews is a wonderful instructor, I definitely feel diploma prep was really helpful! He knows what he is talking about and easily communicates it to the class.

Teacher was well prepared and a great teacher.

I really liked how small the classes were, Ioan made sure while doing questions to go around & see if people needed help. Made asking questions less intimidating!
