

Course: Biology 30 RTD Teacher: Dave

Loved how our instructor knows exactly what is on our diploma - no extra studying required. A lot of ~~tricks~~ tricks were picked up and I learned a few things that I needed to know that were never taught.

Love Love Love this prep course.

Dave is a really cool guy, and a very very good teacher. He makes everyone feel comfortable. It was a great experience

very helpful. I liked how the instructor simplified the course into important details. Left out stuff that was not necessary.

Thank you!

This was an AMAZING course! Our teacher was concise & clear. He taught the material in such a manner that we were able to understand the underlying core-concepts.

I am considering re-taking this course again (JUST FOR FUN) when my sister does Bio 30.

I feel as if I might just get 100% on my exam...

You were awesome! I would definitely take another RTD course.

Thanks for giving a great review of Bio 30 in a fun and easy to understand manner. I would not have studied otherwise.

Dave was splendid. He allowed me to fully enjoy the class, and have a great time.

One of the best RTD teachers! T

- *Probably the most I have learned all year long.
- *The class was fun and also entertaining at times
- *I benefitted from the use of Acronym "Goat Flop"
- *I definitely wish Dave was my Bio Teacher (legit)
- *Definitely worth the money, and will for sure be recommending it to everyone I know.

Awesome guy - Good attitude + enthusiastic about teaching

Made learning dry stuff enjoyable to listen to 😊

Best diploma prep I've been to throughout my prep classes

Course: Biology 30 RTD Teacher: Mr. Dave Gowans

Thank you! You're such a great teacher and also you have given us so much examples to work through! I would definitely recommend this program to my friends who require extra preparation.
