

Absolutely loved Mrs. Parker! She knew her stuff so well! Learned so much from her, even more than my own teacher! I feel way more prepared for the diploma than I did before!

I enjoyed it and hope it helps!
Parker was awesome! :)

Teacher, Paula, was phenomenal! Learned more in 18 hours than 100 ELA classes!

I thought this course was really helpful! Parker was the perfect teacher for this course, she really made it easy to pay attention and survive the course. She tailored the course to our needs, and always went above and beyond to help us, encourage us, and support us. It's great to know that we always have a back up plan! Thanks Parker!

Paula Parker was an amazing teacher for the duration of the course. My favorite thing was the fact that she kept me engaged (and laughing) during the course. I've had a lot of monotonous teachers before that I didn't learn from because of that fact, so Parker was a very welcome change. I really appreciated the effort she put in to make sure students were prepared, inside and outside the classroom. I would recommend an RTD course to someone else, and I'm planning on

This course was amazing, Paula was great - her students are so lucky to have her for an instructor.

I would recommend this to anyone. I know that it has helped me prepare for my exam. I would not change a thing!

She was really awesome

- Parker speaks teenager, therefore helping her class understand a concept by explaining it in a way that we will understand
- didn't hate the teaching methods she offered, rather, she combined her strategies of teaching with how we were taught throughout the years.
- I feel so much happier & prepared!

THANK YOU

Paula Parker was honestly the best teacher I've ever had. I feel very prepared for this diploma and it's all because of Paula.

Very grateful that she cares so much about us and is willing to help us even after this course is over!

Ms. Parker was very knowledgeable and engaging. Even though it was late she kept us awake and interested. I do feel more prepared for the diploma.

Incredible helpful! Gave me a lot of hope and confidence going into the exam. Glad that I came. The teacher was so good. It's like she understood all my problems. Thank you so much for helping and caring Ms. Parker.
