Diploma Prep

RTD offers professionally-moderated online Diploma Prep courses using the web-based instructional platform *GoTo Training*. (Supplemented with on-demand videos) Students will be guided through an interactive diploma-prep - they will **see and hear** their instructor, and experience the same **proven programs** that we offer in our traditional in-person classroom reviews.

RTD online review courses have two instructional options (Extensive Print Course Materials Provided)

1 Online Classroom An Interactive Learning Experience

Just like being in a regular class - students will be able to communicate with their instructor by voice or type chat. They can "raise their hand", and participate in polls and quizzes.

Powerful Learning Resources

Course materials / booklets will be sent in hard-copy form by mail. Pdf versions are also available.

See Close-Up Notes and Guided Examples

Students will see exactly what the instructor has on screen, and will have full access to our specialized online review notes. They will hear their instructor and see their on-the-go notes, their reference materials, calculator entries, etc.

Missed a scheduled online class or registered late?

Class recordings are available for any missed classes for on-demand viewing

2 On-Demand Web Videos

Flexible Learning

We realize that some students prefer the option of accessing their review instruction anytime. In addition to our scheduled online classroom sessions, students can access course content on-demand, as the lessons are also recorded.

Example: Our Math 30-1 review features three classes (15.5 hrs) of online classroom/ live instruction. However a student may choose to skip one or two of these live classes, and access the instruction from our online video library. Where pre-made videos are unavailable, we'll put up recordings of our online classroom.

So - any of our online reviews can be entirely accessed on-demand!
