The Uncertain State of Exams: We understand that exams could be canceled or made optional for January 2021. Any student who signs up for a **Complete** course can decide to opt-out of the online classroom component, and automatically receive a \$40 refund. On-demand video access is provided immediately and is designed to assist students in their classroom unit tests. As such refunds will not be automatically given but requests will be reviewed on a case-by-case basis.

And if diploma exams are made optional and I choose to write: First – we offer our hats off to your confidence and resolve! And we'll be here for you ... as well as providing our anytime videos, with sufficient interest we will gladly run the online classroom component of any course. (As we did for Math 30-1 and Chemistry in October) *We always work hard to find optional solutions with our students, and will do so whatever the state of exam.*
